

Modern Metal from Franconia

The story of DIEVERSITY begins in 2010, when Olav Langer and Daniel Heß found the band. Shortly after, Chris Walther and Michael Steger as well as drummer Dominik Waldorf join the band.

The musical concept is decided early on - modern, melodic yet aggressive metal with socially critical lyrics. In 2012 the first album "Last Day Tomorrow" is successfully released, the title track "Last Day Tomorrow" even reaches #1 in the metal charts.

The second album "ReAwakening" follows in 2015 and two professionally produced videos are shot for the songs "Stop War Inferno" and "In Your Dreams".

Various festival shows (e.g. Christmas Bash, Bonebreaker, Metal Franconia) testify to the increasing popularity of the band's growing popularity as well as numerous club shows all over Germany. Over the years DIEVERSITY played together with bands like ORDEN OGAN, DEW-SCENTED, BLIND GUARDIAN, HÄMATOM, ICED EARTH or HOLY MOSES.

This selection confirms the diversity with which the Franconian musicians go to work. The current line-up is completed by singer Robin Mattner. In this line-up and with their current album "Age Of Ignorance", DIEVERSITY will write the next chapters in the band's history.
